

INDEPENDENT ASSURANCE STATEMENT

To: Rohm Co., Ltd.

Bureau Veritas Japan Co., Ltd. (Bureau Veritas) has been engaged by Rohm Co., Ltd. (Rohm) to provide limited assurance over its sustainability information selected by Rohm. This Assurance Statement applies to the related information included within the scope of work described below.

Selected information

The scope of our work was limited to assurance over the following information (the 'Selected Information'):

- 1) The following environmental data included within ROHM Integrated Report 2024, CDP Reports (the 'Report') and Sustainability Website (the 'Website') for the period of April 1, 2023 through March 31, 2024:
 - Greenhouse gas emissions (Scope 1 and Scope 2): CO₂ from energy, N₂O, HFC, PFC, SF₆ and NF₃ emissions use through business operations of Rohm Group's 15 sites within Japan and 9 sites outside Japan
 - Greenhouse gas emissions (Scope 3): emissions of category 4 within the boundaries defined by Rohm
 - Water: Water Input volume, Water discharge volume and Water recovery and recycling rate through business operations of Rohm Group's 15 sites within Japan and 9 sites outside Japan
- 2) The following environmental data reported internally to Rohm Group only for the purpose of internal management for the period of April 1, 2023 through March 31, 2024:
 - Energy use, Volume of water recovered and recycled and Total volume of water used through business operations of Rohm Group's 15 sites within Japan and 9 sites outside Japan

Reporting criteria

The Selected Information included within the Report needs to be read and understood together with the reporting criteria stated in the Report.

The Selected Information included within the Website needs to be read and understood together with the reporting criteria stated in the Website.

The Selected Information reported internally to Rohm Group only for the purpose of internal management needs to be read and understood together with the internal reporting criteria defined by Rohm.

Limitations and Exclusions

Excluded from the scope of our work is any verification of information relating to:

- Activities outside the defined verification period;
- Any other information within the Report, which is not listed as the 'Selected Information'.
- Any other information within the Website, which is not listed as the 'Selected Information'.

This limited assurance engagement relies on a risk based selected sample of sustainability data and the associated limitations that this entails. This independent statement should not be relied upon to detect all errors, omissions or misstatements that may exist.

Responsibilities

This preparation and presentation of the Selected Information in the Report and the Website are the sole responsibility of the management of Rohm.

Bureau Veritas was not involved in the drafting of the Report, of the Website, or of the Reporting Criteria.

Our responsibilities were to:

- obtain limited assurance about whether the Selected Information has been prepared in accordance with the Reporting Criteria;
- form an independent conclusion based on the assurance procedures performed and evidence obtained; and
- report our conclusions to the Directors of Rohm.

Assessment Standard

We performed our work in accordance with International Standard on Assurance Engagements (ISAE) 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information (Effective for assurance reports dated on or after December 15, 2015) issued by the International Auditing and Assurance Standards Board.

For the greenhouse gas emissions data, we undertook verification in accordance with the requirements of ISO14064-3 (2019): Greenhouse gases - Part 3: Specification with guidance for the verification and validation of greenhouse gas statements.

Summary of work performed

As part of our independent verification, our work included:

1. Conducting interviews with relevant personnel of Rohm;
2. Reviewing the data collection and consolidation processes used to compile Selected Information, including assessing assumptions made, and the data scope and reporting boundaries;
3. Reviewing documentary evidence provided by Rohm;
4. Reviewing Rohm systems for quantitative data aggregation and analysis;
5. Verification of sample of data back to source by carrying out five physical site visits and one remote audit, selected on a risk based bases at the following locations:

[Physical site visits]

- ROHM CO., LTD. HEAD OFFICE
- LAPIS SEMICONDUCTOR CO., LTD. MIYAZAKI PLANT
- LAPIS SEMICONDUCTOR CO., LTD. MIYAGI PLANT
- ROHM APOLLO CO., LTD. CHIKUGO FACTORY
- ROHM Integrated Systems (Thailand) Co., Ltd.

[Remote audits]

- ROHM Electronics Dalian Co., Ltd.

6. Reperforming a selection of aggregation calculations of the Selected Information;
7. Comparing the Selected Information to the prior year amounts taking into consideration

changes in business activities, acquisitions and disposals.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement.

Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

Verified greenhouse gas emissions

We performed our verification work on greenhouse gas emissions data in accordance with the requirements of ISO14064-3(2019).

Verified data in greenhouse gas assertion made by Rohm are as follows.

	Greenhouse gas emissions [t-CO ₂ e]	Boundary
Scope 1	180,771	CO ₂ from energy use, N ₂ O, HFC, PFC, SF ₆ and NF ₃ emissions through business operations of Rohm Group's 15 sites within Japan and 9 sites outside Japan for the period of April 1, 2023 through March 31, 2024
Scope 2 (market-based)	464,414	
Scope 3 (Category 4)	35,320	Emissions of category 4 within the boundaries defined by Rohm for the period of April 1, 2023 through March 31, 2024

Conclusion

On the basis of our methodology and the activities described above:

- Nothing has come to our attention to indicate that the Selected Information has not been properly prepared, in all material respects, in accordance with the Reporting Criteria;
- It is our opinion that Rohm has established appropriate systems for the collection, aggregation and analysis of quantitative data within the scope of our work.

Statement of Independence, Integrity and Competence

Bureau Veritas is an independent professional services company that specialises in quality, environmental, health, safety and social accountability with over 190 years history. Its assurance team has extensive experience in conducting verification over environmental, social, ethical and health and safety information, systems and processes.
